I hereby certify that the information appearing on the referenced labels is true and correct in every respect; that each and every package of the materials listed on the attached product registration form and/or computer printout will be labeled as described (and in addition that net weight; manufacturer's name and address; and guaranteed analysis will be shown); that the attached declarations are the guarantee of the applicant as to the chemical composition of the materials listed for and on behalf of the registrant.

(Signature Required)

(Title)

(Print or Type Name)

(Date)

- **This application must be accompanied by the product registration list on reverse side, applicable registration fees, current lab analysis of waste-derived products and a current copy of the product label for each of the products listed on this application.**

- Chapter 22, Title 6, Section 22-605 (8), Idaho Code, "Any waste-derived fertilizer distributed as a single ingredient product or blended with other fertilizer ingredients must be identified as "waste derived fertilizer" by the registrant in the application for registration." A lab analysis that states the levels of non-nutritive metals, including but not limited to arsenic (AS), cadmium (CD), mercury (HG), lead (PB), and selenium (SE), must be included for each waste-derived product.
- The following waste-derived fertilizers are **exempt** from this requirement: biosolids, composted manure, bone and blood meal, fish emulsion, vegetative and food wastes, and **new** gypsum boards (not collected from demolition sites).

PLEASE COMPLETE THE INFORMATION BELOW FOR EACH PRODUCT:

1. Brand Name: _____ **Grade:** _____

Product Name: _____		
Package Sizes in Net Weight: _____	Is this product a waste-derived fertilizer?	Yes No

2. Brand Name: _____ **Grade:** _____

Product Name: _____		
Package Sizes in Net Weight: _____	Is this product a waste-derived fertilizer?	Yes No
